VOLUME XXXII. UKIAH CITY, MENDOCINO COUNTY, CAL., FRIDAY MORNING, MAY 24, 1901. NUMBER 35

TEACHERS' INSTITUTE

Reports of the Most Successful Session Ever Held in County.

What "The Little Hen Says." Snap Shots and All Sorts of Items.

Ukiah has been crowded this week with pretty school ma'ams who have come from various sections of the county to attend the institute, and Ukiah is proud to honor and entertain the trainers of the future rulers of this great country of ours.

The teachers began to arrive late last week, some of them getting in in time to catch Saturday's early train for the city and thus see the launching of the Ohio, while others got in early Tuesday morning in time to answer "here" to the roll call.

Mendocino County has without doubt the prettiest lot of school ma'ams in the state. When the prettiest ones arrived there wasn't a man in town, single or married, that didn't wish he were a school ma'am

COUNTY SUPT. J. F. BARBEE

too. The town has been all astir every since the first arrivals, and all will be sorry when the session is over.

The teachers came from all directions and in every possible means of conveyance. They came by stage, automobile, horseback, by rail; "some came a limpin' and some came a lame, and some came a hoppin' on a hickory cane," but they all got here just the same with band boxes, valises and trunks galore. To have seen the array of extra wagons used to bring along the toggery, one would have thot that it was either Easter or that there were going to be a number of new millinery establishments opened up in town. Monday's rain caught a number of band boxes and white waists in open conveyances and caused the owners thereof to lay in a new supply, but that didn't dampen any one's ardor to appear in her best, however, when the weather became as lovely as the maidens were fair.

The sessions were held in Mark's Opera house and the Committee on decorations simply outdid all previous efforts in this line. Never has a hall in town been more beautifully or artistically decorated.

TUESDAY'S WORK.

The institute was called to order Tuesday morning by Supt. Barbee, who had worked so earnestly on arranging an up-to-date and instructive program. After the usual preliminaries, Prof. D. R. Augsburg, who is the head of the department of drawing in the Oakland Schools, began the institute work by giving a practical talk on drawing. The Prof. is a past master in his line and illustrated his subject by drawing as he progressed.

In the afternoon Prof. Ellwood P. Cubberly, of Stanford gave an interesting and thoughtful talk on "Why some teachers fail." The Professor is a young man, yet he has had a great deal of experience and gave the teachers the benefit of it in a manner that will prove helpful to all. He was followed by Prof. Augsburg who discussed "water colors" in a somewhat new light.

Tuesday evening the teachers met in the opera house to attend the reception in behalf of the citizens of Ukiah. The music committee had succeeded in preparing quite a musical treat, which all enjoyed very much, especially the singing of the double quartette. Mayor T. L. Carothers then welcomed the teachers in behalf of the citizens of Ukiah in a short but pleasing address. Geo. H. Rhodes responded in behalf of the teachers. On the platform with Supt. Barbee sat ex-superintendents J. H. Seawell, J. C. Ruddock, W. K. Dillingham, and Geo. H. Rhodes. Miss Alice Ruddock read an original poem by J. C. Ruddock. The poem is full of reminiscences and will be found elsewhere in this issue. Mr. Ruddock then addressed the teachers, furnishing them with considerable food for thought.

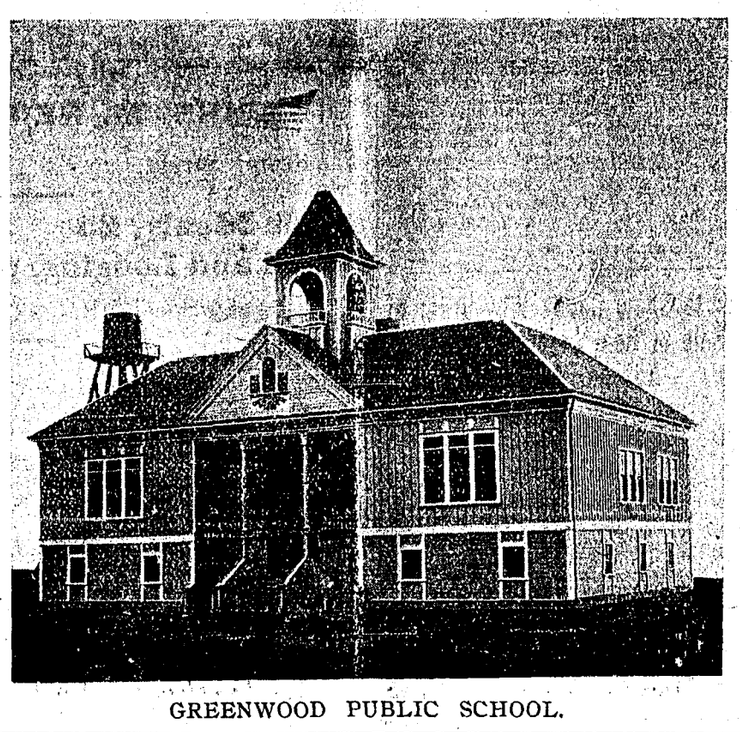
WEDNESDAY'S SESSION.

The session Wednesday morning was devoted to section work and was carried on in the varous departments in the local high school building. Here Profs. Augsburg and Cubberly gave the teachers many practical ideas on drawing and literature. The session was a very profitable one.

In the afternoon, Hon. T. J. Kirk, Superintendent of Public Instruction, was introduced and explained the new laws passed by the last legislature, and especially the one regarding the certification of teachers. There had been some misunderstand- about this law, but Mr. Kirk explained it satisfactorily, and the teachers now think themselves in a better position than before. Mr. Kirk also advanced some good suggestions along this line that will no doubt receive the careful attention of county Boards of Education.

Prof. Augsburg again came forward and illustrated drawing and his methods. The Prof. is quite a drawing card.

Thos. J. Kirk then devoted the remainder of the afternoon to a thotful paper on "Remedies that might be applied in school." The paper dwelt somewhat in statistics to show the evil tendencies in our school system and then suggested a few changes and readjustments that would no doubt improve conditions. He advocated more practical work and less technicalities. To show that common sense and practice was what was wanted, he reviewed some of the wonderful progress made along this line by Booker T. Washington, the greatest negro teacher in America.



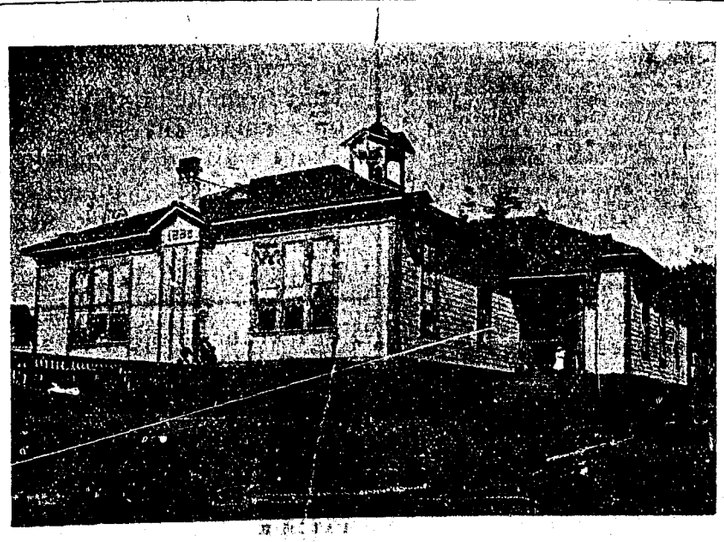
GREENWOOD PUBLIC SCHOOL.

The exercises Wednesday evening consisted of much in the musical line, and was very much enjoyed. Mrs. H. K. Potter accompanied by Mrs. H. B. Smith and Miss Josie Ames, and Miss Lura Kirtley accompanied by Mrs Wadsworth, each sang a solo and were encored to the echo. The orchestra of nine performers, with Mr. Barlow as leader, rendered several splendid selections, which added to the enjoyment. Prof. Cubberly then gave an excellent lecture that was appreciated by both teachers and patrons, his subject being "The principles which underlie the acquirement of an education." His argument was that education in itself is not valuable, but its acquirement is only of value in so far as it trains one to habits of success, unselfishness, the conception of high ideals, and good citizenship.

THURSDAY'S WORK.

The work of Thursday proved to be the most interesting of the entire session, and consisted mainly of five minute talks by various teachers who have been eminently successful in the school room. The teachers all enjoyed these short talks and received more practical benefit from them than they did from the long dry pedagogical talks.

(Continued on page 8.)



MENDOCINO PUBLIC SCHOOL.

SAYS THE LITTLE RED HEN:

That a sweet-smelling bouquet should be tossed to Superintendent Barbee for the good things that he has prepared for the teachers during the Institute.

That owing to the state of the weather on Monday, a great many of the Schoolm'ams were observed chasing rain-beaus.

That Marshall Nuckolls has an affliction in the region of the fifth rib (left side). An X-Ray failed to locate the cause of the trouble, but his physician thinks that his habits of BANK-ing are too sedentary, and has advised the H(off) Cure. Nuckolls leaves for San Francisco to-morrow.

That J. W. Patton made a good talk on drawing, but has not been very sociable since he got Huff-y.

That Johnny Utter was reprimanded for being absent from Institute Wednesday morning, but was forgiven on his promising to abstain from marrying any MOORE.

That Maurice Carey displays many evidences of being a HAAS-been.

That Prof. Augsburg has this to say: "Schoolm'ams are always nice. It is love that moves the world; it is the biggest thing in the world—it is the ONLY thing." Now girls is your chance!

That two of the leading products of the coast section of Mendocino County are RICE and COTTON.

That Abbe Scott is the most intemperate member of the Institute—he is devoutly in love with wine—RED-WINE, you know.

That the thoughts of several of the young men of the Institute are turning towards the WEST.

That R. Y. Glidden is truly a HIGH school-teacher.

That Walter Pemberton refused to preside at the meeting Wednesday night, not wishing to create the impression that Bill Nye had returned in the flesh.

That J. A. Joyce's Attendance card was handed in as follows:

DAY	ABSENT OR PRESENT	EXCUSE
Monday	Absent	Oh, SHAW
Tuesday	Ditto	Ditto
Wednesday	Ditto	Ditto
Thursday	Ditto	Ditto
Friday	Ditto	Ditto

That a certain young Willits gentleman is soon to invade the ranks of the teaching force, and it is prophesied that he will get a fair HALL.

COVELO PUBLIC SCHOOL

That Westerman was a little mixed in his metaphors when he said, "I think when the moment is ripe and the iron is hot, it is time to nip it in the bud."

That the following paradox is up for solution: Why are two of the jolliest girls at the Institute always Woeffel?

The following was caught by the crossing of two wires on the local telephone line:

"Hello!"

"Hello! Is that you?"

"Yes, are you going out to-night?"

"I think so, if I can get ready in time."

"What are you going to wear?"

"Oh, I think I will wear my new black tailor-made. It is perfectly lov-v-v-vely, you know."

"Black? Why, are you in mourning?"

"Yes, you see I lost my back-hair the other day. The girls are all wearing crepe on their arms in sympathy for the sad occasion."

"How terrible. I am so sorry. Well, good-bye, Benton."

"Good-bye." Br-r-r-r-r-r!!!!!!!!

BRIGHT AND SNAPPY.

Augsburg is an excellent artist—he can even draw attention.

Augsburg to Institute—"What's the most delightful thing to draw"—Young teacher—"My salary."

Augsburg—"Quantity has nothing to do with education—especially in drawing."

Sleepy School ma'am—"It has with me— when I draw my salary."

Teacher—"Johnny, it hurts me a great deal more to whip you than it does you."

Johnny—"Well, that may be so, but it doesn,t hurt you in the same place."

The train was late two evenings last week—Cause, too many band-boxes and school ma'am's toggery.

"Tactful Psychology" consists in knowing how to "stand in" with the "push" in a quiet and smooth way.

It is said on the best of authority that Ethel Poage held the Key to the situation.

ALL SORTS.

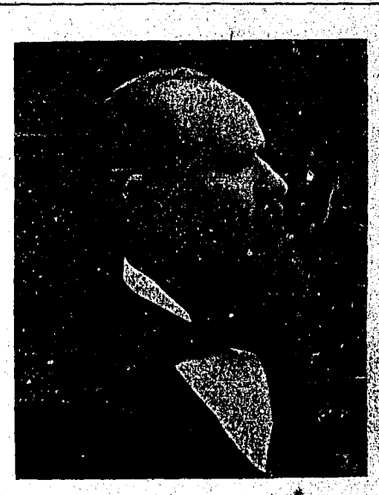
Ukiah extends a hearty welcome to the school teachers.

John W. Utter, the able teacher of the Centerville school, and Miss Stella Moore, one of the county's successful lady teachers, were united in marriage last Wednesday morning, and are now receiving the congratulations of their many friends.

There are 15000 certificated teachers in California to-day, and only 7300 positions to be filled.

Mrs. Dora Gannon and Mrs. W. G. Olden, former Mendocino teachers, are up on a visit to their mother Mrs. M. V. Clevsland.

The long dry "paper" talks were very tame and unpopular. The brief, bright and snappy off hand speeches were the real thing.



STATE SUPERINTENDENT T. J. KIRK

The Occidental Hotel at Mendocino has issued diplomas in the art of cooking to Misses Conway and Van Damme and Benton Scott.

There were many splendid specimens of work on exibition. "Memories of Central", Mrs. Lucia Hopkins, teacher, received many compliments.

The people of Ukiah have literally revelled this week at the social, intellectual, literary, musical and artistic banquet spread so lavishly before them by the teacher's institute. Proud we are of our grand corps of teachers and equally proud are we of Ukiah's people, who so keenly appreciate and enjoy such a treat.

THE RIGHT THING TO PUT ON.

(Benson's Plaster is Pain's Master.)

From the natural impulse to "put something on" a painful spot all applications for the relief of pain have arisen.

The most successful have ever been poultices or plasters, and the best of these is Benson's Porous Plaster.

No other has anything like the same power as a curative agent; it is highly and scientifically medicated, and its standard is advanced year by year.

Use Benson's Plaster for coughs, colds, chest diseases, rheumatism, grip, neuralgia, kidney trouble, lame back, and other ailments that make Winter a season of suffering and danger. It relieves and cures quicker than any other remedy.

Do not accept Capsicum, Strengthening or Belladonna plasters in place of Benson's, as they possess none of its curative power. Insist on having the genuine.

The people of every civilized land have testified for years to the superlative merit of Benson's Plasters; and 5,000 physicians and druggists of this country have declared them worthy of public confidence.

In official comparisons with others, Benson's Plasters have been honored with *fifty-five* highest awards.

For sale by all druggists, or we will prepay postage on any number ordered in the United States on the receipt of 25c. each. Accept no imitation or substitute.

Clean Bread

Can't be made by foul hands and clean, pure blood can't be made by a foul stomach. The blood is made by the stomach and organs of digestion and nutrition. When these are diseased they contaminate every drop of blood made from the food they act upon, and this contamination is carried through the whole body. It may settle in the liver, kidneys, heart or lungs but the root of the disease is in the stomach. Cure the stomach and you cure the disease. Dr. Pierce's Golden Medical Discovery cures diseases of the organs of digestion and nutrition perfectly and permanently. It purifies the blood, and so by curing the cause of disease, cures many forms of disease in organs remote from the stomach.

"For the past sixteen years I have had torpid liver and indigestion and tried many doctors and patent medicines but I could not get a cure," writes Mrs. Simeon Suggs, of Clyde, Sabine Parish, La. "Three months ago I thought I would try Dr. R. V. Pierce's Golden Medical Discovery and his 'Pleasant Pellets.' I got six bottles of each and I received a good result in a week, and to-day I am cured sound and well. The symptoms were coated tongue, specks before the eyes, disposed to be cross and irritable, foul stomach, bad taste in the mouth, tired feeling, a feeling of dread or fear, headache, yellow skin, etc. These symptoms did not all appear at once. If sufferers from such troubles will take Doctor Pierce's Golden Medical Discovery and 'Pleasant Pellets' as directed in pamphlets wrapping bottles, they will bring back the bloom of life as it did with me."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

How Nails Were Named.

Two accounts are given of the terms "sixpenny," "eightpenny," "tenpenny," and so on, as applied to the various sizes of nails. According to one statement, when nails were made by hand, the penny was taken as a standard of weight, and six were made equal to the weight of a copper penny. This explanation is open to criticism on account of the very small size of the nails, of which six were needed to balance even the large sized, old fashioned copper penny.

Others are much more probable. One explanation holds that tenpenny nails originally sold for tenpence a hundred, sixpenny nails for sixpence a hundred, and so on, the smaller nails selling for the lower price. Another explanation is that 1,000 nails of the tenpenny size used to weigh ten pounds, 1,000 of the sixpenny size six pounds, and so on for other sizes. Of the ordinary sixpenny nails there are 80 to the pound; of the eightpenny there are 50; tenpenny, 34, and twelvepenny, 29.—Book World.

Living Down a Hoodoo.

A New York hotel that is daily overcrowded with patronage of the first class was designed as an apartment house and occupied as such until ghosts drove the tenants away. Every night there were strange noises in each of the 350 or 400 rooms. The occupants lost sleep and nerves. Women were afraid to be left alone in broad daylight. Leases were ruthlessly broken, and people moved away in swarms. The news that the place was haunted spread all over the country, enticing scores of bold investigators. The noises continued, but no ghost was seen. The proprietor was in despair. Some advised him to burn the house down, others to wreck it. Finally he sold. Another of New York's seven day sensations dropped out of mind, and presently new tenants, who had never heard of the "haunts," flocked in to take advantage of the reduced rates. Today we witness the spectacle of a hoodoo lived down in the very heart of our great city.—New York Press.

Washing of Floors.

The too frequent washing of floors of sleeping and living rooms is not to be commended, the resultant dampness being a very potent source of evil. Once a week is enough for this operation, and the rugs should never be replaced until the floor is thoroughly dry. Warm water and soap, with the addition of a little household ammonia, is best for the washing of any kind and every kind of board floors, but a painted, varnished or oiled surface must never be treated with a scrubbing brush or unsightly scratches will be the result. Grease spots may be removed by an application of fuller's earth, while spots of ink will yield readily to a scrubbing of spirits of salts.

The Willits Homicide.

An account of the killing of Sim Wilson by Marion Armstrong this week will be found in our regular communication from that town in another column. The examination of Armstrong has been set for tomorrow before Justice Kenworthy. A brother of Armstrong and a stage driver were eye witnesses to the affair. The stage driver went north with his stage prior to the inquest, so it cannot be told what his testimony will be. Armstrong testified at the inquest that Wilson was very abusive to his brother and finally made a motion as if to draw a weapon, whereupon his brother picked up a stick of small wood and struck Wilson on the temple. That is about all that can be ascertained until the preliminary examination tomorrow.

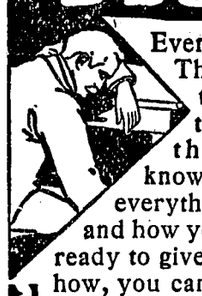
On Wednesday evening Deputy Sheriffs G. R. Redwiae and J. D. They have done some exceedingly fine work, and have endured many hardships in running down criminals.

BLUES



Ever have them? Then we can't tell you anything about them. You know how dark everything looks and how you are about ready to give up. Somehow, you can't throw off the terrible depression.

Are things really so blue? Isn't it your nerves, after all? That's where the trouble is. Your nerves are being poisoned from the impurities in your blood.

Ayer's Sarsaparilla

purifies the blood and gives power and stability to the nerves. It makes health and strength, activity and cheerfulness.

This is what "Ayer's" will do for you. It's the oldest Sarsaparilla in the land, the kind that was old before other Sarsaparillas were known.

This also accounts for the saying, "One bottle of Ayer's is worth three bottles of the ordinary kind."

The Local Oil Well.

Some bad luck, occasioning delay, has been experienced at the local oil well. The drillers got down into quick-sand, which stuck the casing so that it could neither be pushed down nor pulled up. When this happened the well was down several hundred feet, but the sand came up inside the casing so that much of the work will have to be done over again. New casing of smaller size is on the ground and will be slipped down inside the first casing as the sand is removed.

Albert Brown Sustained.

On the 17th inst Judge Dougherty of Sonoma County handed down a decision in the case of the application of William Heeser for a writ of Mandate to oust Albert Brown from the Secretaryship of the Bank of Mendocino. The court holds that Section 11 of the Bank Commission Act authorizes the Directors of a Bank to fill all vacancies in the directory occurring during the period of liquidation. "Under this construction of the act, says the learned Judge, I feel no doubt under the evidence, that Albert Brown's election to the Secretaryship of the corporation was legal, and that the petitioner is not entitled to the writ. Let findings be prepared and presented in accordance herewith."

The rain of last Monday was an unusual occurrence, in that it has rained but five times on the 20th of May since 1852. Monday's storm originated outside the bay of San Francisco and moved in a northeasterly direction, traversing a distance of 600 miles in 12 hours.

WILLITS CORRESPONDENCE

Newsy Notes From Our Northern Neighbor

Happenings Of The Week As Chronicled By Our Hustling Reporter

(*Special to The Dispatch.*)

WILLITS, May 22.

The law is an expensive luxury, so say those who have tried it. The people of Willits are indulging in it quite extensively, at present. In former days a law suit was the talk of the town. No one takes any notice of such proceedings now, unless he happens to be interested on one side or the other, or the suit results in a trial. On complaint of Chas. Whited, a Mr. Greathouse was brought back from Humboldt County to answer to a charge of leaving Willits without settling his board bill at the Whited hostelry. After reaching Willits the matter was satisfactorily adjusted, and the case dismissed. Mr. Whited has also sued Chas. M. Pettengill to recover a small amount in dispute. Mrs. N. M. Vincent has sued Coffer Bros., to recover $142.37 on a blacksmith bill. The defendants are represented in the case by our aspiring young legal light J. A. Joyce. J. C. Ruddock of Ukiah appears for Mrs. Vincent. J. M. King has sued Mrs. Vincent in the Superior Court for an accounting of a partnership business formerly conducted by them at Willits. John Harms has commenced suit to foreclose a chattel mortgage against the Coffer Bros., and Moore & Banks, on the saw-mill and machinery operated by them about three miles north of Willits. Mrs. Ann Longland has sued J. Gruben to recover a balance of account alleged to be due.

The two story building erected by John Harms on Main street, in the same block with the Palace Hotel, is nearing completion, and will be a great improvement to our principal business street. There will be three stores on the ground floor, and the second story will be fitted up for offices. E. F. Swortfiguer has engaged the corner suite, and will open handsomely furnished law offices there about June 10th prox. Dr. Goodsir has also taken rooms in the Harms block for his down town office.

Geo. F. Wells and his son R. B. Wells have located in Willits, and have opened offices for the practice of medicine and dentistry.

Dr. Chalfant, formerly of Ukiah, seems permanently located here, with offices at the Palace Hotel. He has a large dental practice.

Sam Blodes, also well known at the county seat, conducts a very neat and well appointed barber shop in the Palace Hotel.

The profusion of professional and business men, in this once quiet town, is somewhat confusing to the old time citizen.

The Life Insurance agent obtrudes his presence on us. along with the rest, and has lately won quite a number of converts to his views on that subject. W. L. Williams of Santa Rosa, representing the Mutual Life Insurance Co., of New York, was the lucky man who induced several of our prominent men to take out policies in the above company.

The Order of Maccabees has established a lodge here, and the first annual ball is announced for June 14th.

Gus Fairbanks, formerly of Petaluma, has taken the contract to furnish the new mill company with meat, and has erected a slaughter house about one mile north of town. He bought out Spence Beattie and conducts a meat market at his old stand on Main street. Bert James is the obliging attendant at the shop, and resides on Oak street, west of Main, in a neat cottage recently erected for him.

John Harms also has a new slaughter house, located just north of town, on the old fair grounds.

The railroad has been making many changes and improvements, in and about the Willits property, owned by it. They have put the fence in front of the old Homestead, about twenty feet further east, and the fence across the road a corresponding distance east, thus making a straighter shoot from the bridge, south to the bend at the old post-office. The large lot on the east side of the road has been cut up into blocks, and streets have been laid out and substantial fences placed around each block. A street has also been opened and fenced, running west from Main street along the south side of the Willits' Homestead. West of the town the R. R. Co., has laid out and fenced a large tract of land and contemplates making a public park among the grand old oak trees. A large reservoir, on the hill just south of the Wm. Russe place, supplied from springs on the Gilliam ranch, will furnish an abundant supply of water for this addition, and keep the park green and fresh the year round.

Your correspondent heard several prominent gentlemen of the valley discussing the necessity for and general need of a farmers exchange in Willits, a place where merchants, farmers and buyers could meet and transact business. As it is, they are obliged to resort to various expedients to secure a quiet nook in which to discuss business propositions. The subject seemed to meet with unanimous approval, and the exchange may become an established institution of our new city, at no distant day. It would undoubtedly be a good thing, and we hope the matter will be taken up in earnest.

The readers of the DISPATCH may not know that there is a private telephone line in successful operation between the town and the residence of Eugene McPeak, the route taking in Messrs. L. A. Stuart, Geo. Yordi, Geo. Mast, W. T. Saxon, Wm. Moore and Eugene McPeak. Its cost was less than $40 to each subscriber, gives good service, is a great convenience, and another evidence of progress. Another private line is talked of across the center of the valley and down the east side to the outlet.

We have been gradually working up to a climax in criminal matters, and have run the gauntlet from petty larceny to murder. The latter crime was added to the list by the death on Tuesday morning, the 21st inst of Sim Wilson. The facts as nearly as can be learned are as follows: Marion Armstrong and Sim Wilson, the latter being under the influence of liquor, had an altercation in the kitchen of the Palace Hotel, over the demand of Wilson, that Armstrong, who was the cook for the hotel, prepair him a hot meal. Wilson, it is said, grew boisterous and abusive, and was ordered out of the room. The evidence at the coroner's inquest showed that Wilson not only refused to go out but made a motion, as if to draw a weapon, whereupon Armstrong picked up a stick of wood and knocked Wilson down. He was then removed from the kitchen to the porch outside and in a little while revived enough to walk up the street, finally disappearing in an alley way near the Occidental Hotel, where he was found later on in an unconsious state and removed to the Little Lake Hotel. Dr. Woeffel was summoned and found him suffering from concussion of the brain. All possible medical aid was given him, but he died at 8 o'clock the next morning. Armstrong was arrested by Marshall Ben Good and is now confined in the town jail under guard. A brother of Armstrong and the driver of the north bound stage witnessed the tragedy. The coroner's jury reserved their verdict until an autopsy could be held. Drs. Woeffel and Wells completed the autopsy, but their opinion is not known at this writing. It appears that both Wilson and Armstrong were old friends, and there does not seem to have been any intention on Armstrong's part to commit murder. Justifiable homicide will probably be the prisoner's plea if arraigned for the offense.

The Dispatch is glad to note the superb playing of the Ukiah boys that helped onr sister town win the game.

At a meeting of Kearsarge Post, Grand Army of Republic No 64, the following arrangements were made for Memorial Day. An exchahge makes the statement that in many communities in Mendocino County two sharpers have been working the bunko game known as the telegraphic fake, on the farmers. The game consists in delivering to the farmer a bogus telegram rnnouncing the death or serious illness of a near relative and collecting therefor from $3 to $5. No instance of this kind in this conuty has come to our knowledge.

A Conundrum

SMITH MET JONES at C. Hofman's Corner and propounded the following conundrum, which Jones could not answer, but agreed that it was a good one when Smith explained:

Smith—Jones, why is a man with a $15 suit bought at C. Hofman's like the father of new twins?

Jones—I don't know, Smith; why is he like the father of new twins?

Smith—Because he's got twice as much as he expected.

Moral—Buy your suits at C. Hofman's and like the man with the twins, you will get more than you expected or bargained for.

Robbed the Grave.

A startling incident of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at J. R. Mathews' Drug Store.

Notice of Special Election

In the matter of the refunding of the outstanding County indebtedness of the County of Mendocino.

It appearing to the Board of Supervisors of the County of Mendocino, from the report of J. N. Rea, County Treasurer, that said county at present has a bonded indebtedness in the sum of $95,000, bearing interest as follows, to wit: The sum of $63,000 due July 1st, 1901, and bearing interest at the rate of 4 per cent per annum; the sum of $3000 due July 1st, 1906, bearing interest at the rate of 5 per cent per annum; the sum of $9,000, due July 1st, 1921, bearing interest at the rate of 6 per cent per annum; and the sum of $20,000 due July 1st, 1902, bearing interest at the rate of 6 per cent per annum.

And that there is a condition in each and every one of said bonds that they may be paid at any time at the option of the said County of Mendocino.

And it further appearing that there are not now, and will not be sufficient funds belonging to the fiscal year ending June 30th, 1901, to pay the said bonds in said sum of $63,000 falling due on July 1st, 1901; and it being represented to the said Board that if the whole of said bonded indebtedness of said County is refunded and reissued into proper and legal bonds, bearing interest at a rate not to exceed 4 per cent per annum, that said bonds so issued can be readily sold to buyers of bonds as provided by law at not less than the par value thereof.

It is therefore declared that the purposes for which a bonded indebtedness proposed to be incurred are first, to meet the payment of all of the bonds of said County, falling due in July, 1901, to wit: The sum of $63,000, and second, to raise sufficient funds to pay off all the remaining bonds of Mendocino County, being the aforementioned certain bonds in the sum of $32,000, in order to secure a lower rate of interest than is now being paid on the same.

The Board of Supervisors of Mendocino County therefore proposes to issue the bonds of said County in the sum of $95,000 in denominations of $500 for each bond, and each of said bonds to bear interest at the rate of 4 per cent per annum, payable semi-annually on the first days of January and July in each year, during the term for which said bonds shall run—five of said bonds of $500.00 each, making the sum of $2500 in all, shall be paid each year on the first day of July, commencing July 1st, 1902 and all of said bonds shall be paid in 38 years from said July 1st, 1902, together with all interest thereon.

Notice is hereby given to the qualified electors of the County of Mendocino, State of California, that a special election is hereby called to be held in said County on the

28th day of May, 1901

at which time the qualified electors of said County may vote upon the question of the issue of said bonds as aforesaid.

The words to appear upon the ballots, used at said special election shall be "Bonds—Yes" "Bonds—No," and the voter shall stamp a cross opposite the word "yes" or "No," as he may desire to vote for or against said proposition.

None but qualified electors of the County of Mendocino shall be permitted to vote at said election, and it shall be held as nearly as practicable in confirmity with the general election law of the State of California.

Notice shall be given of such special election by publication of a copy of this notice in The DISPATCH-DEMOCRAT, a newspaper published in said County of Mendocino, once a week for four weeks prior to such special election.

It is further ordered that the following persons be and they are hereby appointed officers to conduct said special election, and that the polls shall be held at the following named places, to wit:

In testimony whereof, I have hereunto set my hand and caused the seal of the Board of Supervisors of Mendocino County to be affixed at the office of said Board in the Town of Ukiah City this 5th day of April, 1901.

[SEAL.]

L. BARNARD,
Chairman of the Board of Supervisors of the County of Mendocino, State of California.
Attest: HALE McCOWEN,
County Clerk and ex-officio Clerk of the Board of Supervisors of the County of Mendocino, State of California.

Shall Debt Be Refunded?

Our esteemed fellow citizen, Mr. T. E. Rawles, sent in a signed communication last week on the county bond question, which was given space in the Dispatch, because we think it right and proper to give all sides of such questions a fair hearing. Mr. Rawles is opposed to refunding the county debt and wants the outstanding bonds paid as they become due. As $63,000 worth of bonds will fall due July 1st, it will be seen that the question is right "up to" the taxpayers. We think Mr. Rawles is largely mistaken in his premise, and therefore his conclusion is wrong. No doubt large areas of coast lands will be denuded of their best timber before the refunded bonds shall become due, but that does not signify that the country will be abandoned or cease to produce revenue. Other industries besides lumbering will spring up. Dairying will become a coast industry of large proportions.

Mr. Rawles says, "let the Supervisors economize." That is all right. They should economize in every way, and doubtless they are trying to do so; but when farmers and land owners all over the county are constantly demanding that each particular road be put in better condition, and that new roads, claimed to be absolutely necessary, be laid out and opened, we cannot in justice accuse the Supervisors of unwarranted extravagance. As to the "fat offices" around the court house, we know of none that are not provided for by law and it cannot be said that the salaries are excessive. Our friend Mr. Rawles says: "Let us vote "No" on the question and send the thing bang up against the State Board of Equalization and let the Board fix the rate." As the State Board has nothing to do with fixing county rates or refunding county debts, we fail to comprehend what our friend is driving at. The taxable property in the county is in round numbers $10,500,000. Upon this the last tax rate for county purposes was $1.50 on the hundred dollars. This rate produced about $150,000 for the use of the county. The state rate, in round numbers 50 cents, produced $50,000 more, a total of $200,000. If we pay the $63,000 of bonds next fall, figuring other taxes at the same rate as for this fiscal year, we will require a rate of $2.60 on the hundred. It is for the taxpayers to say whether or not they feel in a financial condition to stand this additional tax the coming year. If the people vote to refund, five of the new bonds will be payable each year, the yearly payments of principal being $2500. If we vote not to refund, $20,000 more of the old bonds will mature July 1st, 1902, making $83,000 practically now due.

Illogical Reasoning.

At the dedicatory exercises of the Pan-American Exposition at Buffalo, New York, last Monday, Vice-President Roosevelt made a speech in which he enunciated some good Democratic doctrine, as follows:

"There are certain truths which are so commonplace as to be axiomatic, and yet so important that we cannot keep them too vividly before our minds. The true welfare of the nation is indissolubly bound with the welfare of the farmer and the wage worker, of the man who tills the soil, and of the mechanic, the handicraftsman, the laborer. If we can insure the prosperity of these two classes we need not trouble ourselves about the prosperity of the rest, for that will follow as a matter of course."

We are free to recognize truth from whatever source it may come, and give Mr. Roosevelt credit for having stated a broad truth in the foregoing extract. But we regret to note that, further along, he qualified this statement and blunted its wholesome force, by taking the ground that tho to a certain extent corporations should be under the control of law, they should not be so fettered as to prevent them from taking the leading position in the international industrial world. In other words, his evident meaning is, if the formation of giant trusts will add to our industrial strength in the competitive contest with other nations, then we must have the trusts, and we must not fetter them by laws which will in any way interfere with their operations abroad, no matter what effect the absence of control may have on the prosperity of the farmer and the laborer at home. Mr. Roosevelt's logic is faulty. He first announces that if we can secure the the prosperity of the farmer and laborer, we need not trouble ourselves about the rest, and immediately makes a special plea for the protection of the Trusts.

Prosperity and Strikes.

Notwithstanding all of President McKinley's eloquent speeches abont universal prosperity and the alleged contentment of the people, the papers continue to be filled with accounts and rumors of strikes in the ranks of labor. Mr. McKinley evidently believes in the theory of certain alleged mental scientists, that we have only to will and believe a thing to be true, and it will be true. But the stern logic of facts comes in to refute the President's mellifluous but erroneous assertions. Last Saturday the President visited the Union Iron Works in San Francisco and spoke eloquently to 4000 employes, who applauded to the echo. But alas! On Monday 3700 of these men went out on a strike. The men demanded a nine hour work day and a 12½ per cent increase in wages. This strike extends thruout the United States, showing that it is not a matter of local discontent. When it is considered that the machinists are among the best paid of skilled laborers, it may well be assumed that other classes are equally discontented with present conditions. And how is it with other industries? Tne farmers, as a rule, have barely held their own, and in thousands of instances they have not even done that well. The country merchants find collections no easier than before. The country banks are foreclosing upon mortgaged farms (tho unwillingly) and find it hard to realize upon their loans. We do not say all this in a pessimistic mood. We only say that we cannot bring prosperity and contentment merely by asserting that we have it. A factitious prosperity often leads to ruinous speculation and the basis of its pretended existence should be carefully investigated. We admit that the total products and wealth of our country are enormous, and that the largely rich are growing richer; but how is it with the wealth producers? It will be well for the people to take the words of our President with at least a modicum of allowance for his unwarranted enthusiasm.

His Excellency the Hon. Narrow T. Gage has succeeded in creating a great deal of opposition to his renomination, and the chances are that he will be defeated in the next convention by Hon. Thomas Flint.

It seems that Narrow T. Gage gets into trouble every time a public "function" takes place and is "snubbed" before the event is over. The trouble with Gage is he thinks the State is as narrow as he and that he can run the entire affair single handed and alone. He forgot to figure on Rubicon Otis, that's all.

A COMPARISON!

The bids for printing the delinquent tax list were opened by the Board of Supervisors last last Friday and found to be as follows: Record, 43c per square; Dispatch, 50c; Press, 60c; F. W. Broback, 80c.

The people will please observe that the man that has been howling "robbery" and exorbitant rates had in the highest bid of all. The Record was awarded the contract.

The delinquent list was printed the three years prior to this by the Dispatch. There were in all 4931 squares printed for $2096.60. If Broback had printed the lists at the rate he wanted, it would have cost the county $3944.80, nearly twice as much as The Dispatch's bill. Or, in other words, if Broback had performed the work he claims the Dispatch received $9000 for, the county would have been taxed $10,848.20 for it—$1848.20 more than The Dispatch charged.

The Dispatch came out last week under many difficulties. Two of the force, foreman Van Allen and wife hied themselves to the city to shake hands with the President and extend him the best wishes of the paper, while our head compositor, James J. Heath was at Orr's Springs trying to rid himself of the rheumatics, leaving the editor, who is a poor "typo," and the "devil" to get out the paper alone. The editor succeeded in furnishing plenty of copy as usual, but when he and the "devil" got thru "setting" at it, it was unrecognizable. Then to cap the climax Capt. Abe Marks rushed in with an entire change for his page "ad," the editor fainted and came to two hours afterward only to find that the "devil" had deserted the "proof corrections" to fan himself with a feather. Ed Keller and Carrie Van Allen of the Press force came to the rescue in the nick of time to prevent murder and general desolation by helping straighten matters out, for which timely service the entire force, both absent and present, extend sincere thanks and promise to reciprocate under similar circumstances.

The latchstring to the door of success still hangs out. Twenty years ago C. M. Hays was a clerk at one hundred dollars per month; nineteen years ago C. M. Schwab was a clerk in a grocery store; today he gets more than $1,000,000 per year. Hays and Schwab had neither personal friendship nor political pull nor capital, at the start. They became experts. The world wants experts. There are univerities that want expert presidents; there are cities that want expert superintendents; there are boards of education that want expert teachers; there are corporations that want expert managers; there are churches who want expert preachers; there are clients who want expert lawyers; there are sick who want expert doctors; there are merchants who want expert salesmen; there are women who want expert servants—everywhere there is a cry for experts. The man who can do one thing a little better than any one else will get on. Walk up, ladies and gentlemen; walk up, boys and girls; there is gold for the men, rank and position for the ladies, and places for us all.—Western Journal of Education.

The last issue of the Press had quite a sensible article on the subject of printing and incidently referred to the late controversy between the Press & Night and The Dispatch. Bro. Pennington made one mistake however, in referring to the Press & Night and The Dispatch as "our two Democratic contemporaries." The Press & Night is not a Democratic paper, but is listed as one of these so-called "independent" sheets, a kind of a cross between a billy goat and a jack ass, which kicks with one end and brays and butts with the other.

Democratic Gains.

Joe Thomas went home during the afternoon of May 7th and was surprised to find an 8 lb. baby boy awaiting the return of Papa.

Mrs. J. B. Sanford presented her husband with an 8 lb. democratic boy last Monday. The young fellow is a thoro democrat all right, but he believes strongly in the expansion of his lungs.

Mrs. John Rubber of northern Mendocino made John happy last Sunday by presenting him with a boy. Is is unneccessary to state that he is a bouncing one.

TEACHERS' INSTITUTE

(Continued from page 1.)

The grand musical concert given last evening by San Francisco talent was a rare treat for the musically inclined. Each succeeding number seemed better than the previous one and was heartily encored.

The work of the institute will be continued to-day, closing about 3 o'clock to give the teachers time to visit the fish hatchery before bidding Ukiah adieu.

Grand Ball To-Night.

The grand ball to be given in honor of the teachers this evening promises to be the swellest event ever given in Ukiah. The grand march is something novel and has never been given in this country but once. It takes four couple to lead it.

The committees having the matter in charge are: Ball committee—Abe Marks, Chairman, J. A. Jamison, E. B. Gibson, Maurice Hirsch, J. J. Keller.

Reception committee—Mesdames Seawell, Chairman, H. V. Weldon, J. A. Jamison, E. B. Gibson, M. L. Gibson and Messrs L. W. Babcock, C. B. Johnson, F. L. Caughey, Alf Pennington and B. S. Hirsch.

Complimentary to teachers. Regular admission $1.00 per couple. Ladies free. Spectators 50c.

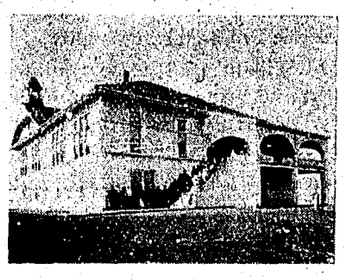
TOO OLD TO TEACH.

In the sere and yellow leaf of life,
I wonder what I'll do!
I cannot work at labor hard;
The whole of life seems blue.
I once could cope with any strife,
Success could easy reach,
But that was in my prime of life—
I'm now too old to teach.

Too young to teach at Baker's Flat,
Where my school room life began.
Scarce eighteen summers then had passed,
Of life, a goodly span;
The school board said 'twould useless be
To try to run the school,
For every child at Baker's Flat
Was stubborn as a mule.



MENDOCINO HIGH SCHOOL.

The school board met at Luther Short's;
I thought I should be hung;
They asked about my age and such,
And voted me too young.
They said, howe'er, that I could stay,
If this I could afford,
To try if I could run the school—
But where was I to board?

The rivalry grew strong on this,
Old Luther said, with him,
But Brown and Jones, the other two,
With protest filled with vim.
Tossed up a coin with heads and tails,
To see which one would win.
So Jones flung up the silver piece,
Which rolled 'gainst Luther's shin.

Old Luther won, he always did,
The others growled consent;
I thanked them all for kindness shown,
And up to Short's I went.
I taught one month at Baker's Flat;
A long, long term for me—
I'd taught the earth was one fourth land,
The other three were sea!

Full forty years have passed since then,
And now, I'm old and gray;
I cannot get a school to teach—
They turn their heads away.
With forty years experience,
I feel the world is cold;
Too young too teach at Baker's Flat,
And now to teach,—too old!

Too young, they say, when we commence;
Too old, when years pass by;
Too strict, if discipline is kept;
Too easy, if we sigh;
Too much, these "toos" are always used,
Too seldom speak we bold;
Too little pay for what we do,
That's why we get too old!

J. C. RUDDOCK.

UKIAH GRAMMAR SCHOOL.

Old Luther Short, the oracle,
Of the district and the flat,
Was school trustee and president,
And everything like that!
"A failure sure you'll make of it,"
Was the burden of his speech—
We want an older pedagogue,
For you're too young to teach!

He knew a lot, old Luther did,
With what his wife could tell;
Of all the hap'nings of that school,
Since first they heard the bell;
Old Gassy Clark had tried to teach—
They wou'dn't let him stay;
Because he taught the earth is round,
And so he went his way.

Miss Emma Stiles, a Normalite,
Took charge, and trouble met;
She tried to teach to spell and read
Without the al-pha-bet!
Then Susie Moore came to the flat
To see what she could do;
She talked of bugs and butterflies,
And called water H-O 2.

Then buggy rode with Andy Smith,
That settled her case then;
They didn't want no school marms there,
That buggy rode with men.
Then Julia Green secured the school—
An old and fair haired maid;
She was too old for any use—
One week was all she staid.

How the Iron Chancellor Lost His Balance and His Shrimps.

A Parisian journalist has been interviewing Mr. Urbain Dubois, the former chef of the old Emperor William of Germany.

Among other things the old cook, who is now 87 years of age, recalled Bismarck's exceeding fondness for shrimps.

Bismarck was a perfect ogre at the table. Of shrimps he could never get enough. He was fastidious too. The shrimps must be just out of the water.

Once a court ball was postponed for two days. The supper consisted chiefly of cold dishes which would not be injured by the delay, but Du-

bois was very anxious about his shrimps, of which he had provided a large quantity for Bismarck's delectation.

"I watched over them like a mother over her babe," said the old chef. "Despite all my care, I detected a—well, a flavor that I didn't like. It was barely perceptible, but it was there, and they were such magnificent fellows!

"I prepared them and put them on the very top of the buffet. I was standing behind a screen when Bismarck entered the supper room.

"I heard him growl, 'What scoundrel has put my shrimps up there by the ceiling?'

"I kept to my hiding place, and presently I heard a crash of plates and glasses. The chancellor, in trying to get at his shrimps, had lost his balance. He went away swearing. The perspiration stood in drops on my forehead.

"But at least no one could reproach me with the bad quality of viands. My honor was safe."

The Game of Orders.

King Edward has shown his ability to uphold his own dignity and that of the English crown in rather an amusing encounter with the sultan of Turkey. The sultan thought it necessary to show some recognition of King Edward's accession to the throne. At the same time he did not wish to offend the Russian czar or the German kaiser by seeming to treat the British sovereign with too great deference. The sultan therefore offered to bestow on King Edward the Turkish order of merit, Nichan-I-Imtiaz, established in 1879 by Sultan Abdul Hamid II to reward palace cooks, rich merchants and others who had won the sultan's esteem in a moderate way.

The sultan stated in his message to the king that he could show no higher mark of regard for the new king of England.

King Edward, however, knew better, but was too diplomatic to say so. He knew that the Imperial Order of Osman, which the sultan had bestowed on the German kaiser, was the highest Turkish dignity, and he easily understood the sultan's motive in offering the inferior decoration. He therefore sent a message thanking the sultan for his "generous courtesy" and offering in return to confer on his Turkish majesty the rank of chevalier of the Royal Victoria order and expressing his regret that he could not bestow on him the Order of the Garter, the highest English decoration. The sultan, seeing the irony of the reply, did not send the Order of Imtiaz and has not yet, of course, received the ribbon of the Victoria order.

Never Met Them.

Mr. Cadd—No, indeed! I never associate with my inferiors. Do you?

Miss Peppery—I can't say. I don't think I've ever met any of your inferiors.—Philadelphia Press.
